PROFESSIONAL EXPERIENCE

Technical Support Specialist I – ServiceLink (Fidelity National Financial) (40hrs)

Mar 2024 – Present

- Resolved complex access management, authentication, and enterprise application issues for a nationwide user base, ensuring compliance with security and operational standards.
- Administered user lifecycle activities, including account provisioning, deprovisioning, MFA management, access reviews, and permission changes across multiple business systems.
- Performed root-cause analysis on recurring technical issues and collaborated with cross-functional teams to implement corrective actions.
- Served as a primary escalation point for application access, identity management, and business software support incidents.
- Supported enterprise technologies including Microsoft 365, Active Directory, VPN solutions, VDI environments, and cloud-based business applications.
- Partnered with business stakeholders, vendors, and technical teams to troubleshoot and resolve production-impacting issues.
- Managed a high-volume ticket queue while consistently meeting service level agreements (SLAs) and customer satisfaction objectives.
- Delivered exceptional customer service through effective communication, technical expertise, and ownership of incidents through resolution.

Enterprise Help Desk Analyst – Duke Energy (40hrs)

Dec 2022 – Apr 2024

- Provided first-line technical support and troubleshooting for end-users.
- Diagnosed and resolved hardware, software, network, and connectivity issues.
- Escalated complex technical problems to higher-level IT personnel.
- Installed, configured, and maintained desktops, laptops, printers, and other IT equipment.
- Managed user accounts, including password resets, access requests, and system permissions.
- Utilized enterprise IT tools including ServiceNow, BMC Remedy, Bomgar, Cisco AnyConnect VPN, Active Directory, Citrix Workspace, and Microsoft 365.

Infantryman (11B) – Florida Army National Guard

Jun 2017 – Jun 2023

- Enforced physical security and force protection protocols, conducting site risk assessments to secure personnel, equipment, and tactical positions.
- Monitored physical access points and perimeter defenses, maintaining zero security breaches or unauthorized entries during deployment.

- Documented and reported security vulnerabilities through daily situation reports (SITREPs), ensuring immediate physical fixes to meet military safety standards.
- COVID-19 Response Logistics & Security Coordinator: Directed physical access control and traffic flow at statewide medical and vaccination sites. Coordinated secure entry, site defense, and daily logistics for over 200 medical staff, ensuring safe and uninterrupted operations.
